Operating System

Supported File Systems

MAC File System
will be
supported
In 2018

Mobile Compatibility

Other User Interface

1. Window Explorer Support

Name Space

Open/Save/Save As – Not allowed for applications
 Inter-docs link in excel files not supported
 Video link in PPT files not supported
 3D CAD files not supported
 Very slow because of file download
 Big video files should be downloaded first before playing

Mapped Drives

Directly accessible file system
 (No file copy to local disk)
 Easy to use, fast and flexible
 Compatible with most of existing applications
 (But, simultaneous file editing is not allowed through the Internet)

2. Team Space

No Team Space

Team Space

- **Folder access control list**
- **Folder quota**
- **Sub folder manager**

3. Granular Access Control

Any user who has access to the Marketing parent folder would automatically have access to all its sub-folders.

Even though you have permission on Parent folder, you need to get permission for any sub folders.

4. MAC support

MAC file system

Java Explorer

Web Explorer

Web Explorer

5. Web Explorer

The screenshot shows the Box Web Explorer interface. The left sidebar includes links for All Files, Recents, Favorites, Synced to Desktop, Trash, Messages, Collaborators, Box Notes, Workflow, and Admin Console. The main content area displays a list of files and folders under the 'All Files' tab. The list includes:

- Annual Committee Planning (September 5, 2016 by Victor Shen, 834 Files, Jake Thomas Owner)
- Camera Uploads (September 5, 2016 by Kyle Waldrop, 388 Files, Kyle Waldrop Editor)
- Client Presentations (September 1, 2016 by Yen-Wei Liu, 12 Files, Sam Devlin Editor)
- Design Docs (August 30, 2016 by Jake Thomas, 34 Files, Stephanie Parrott Editor)
- Employee Documentation (September 2, 2016 by David Lee, 92929 Files, Janette Heininger Editor)
